

Film City Glasgow : Building Map For Cyclists

Film City Glasgow is proud to offer support to cyclists as part of our ongoing commitment to becoming a more sustainable business.

Situated in the heart of Glasgow's thriving media quarter, Film City is well positioned within the expansive cycle route network that extends throughout the city and beyond.

As an accredited Cycle Friendly Employer, we are pleased to provide the following facilities for cyclists:

Dry Store / Locker Room

Located in the reception area at our main Govan Road entrance, secure storage is provided in the form of lockers as well as hooks for bags, clothing and other accessories.

Changing Facilities

There are a number of toilet facilities located throughout the building, all of which may be used by cyclists to change in and out of their roadwear.

Wet Room / Shower Facilities

Plans are well under way for the addition of a private shower room which will be available for cyclists' use.

Bike Storage

Bikes may be parked and secured in the purpose-built shelters located in either of our internal courtyards, offering peace of mind for building users who require a safe place to park and lock up their trusty steeds.

Cafe

Adjacent to the South Courtyard, the Film City Glasgow Cafe is operated by Glasgow's much-loved Roast, who offer a wide range of freshly made sandwiches, excellent coffee and various other treats and refreshments. Visitors to the cafe may sit in or take away.

Duty Managers / Light Maintenance Provision

Our Duty Managers are fully trained to assist with minor repairs such as mending punctures and changing tyres and can offer a selection of tools for any light maintenance work you may require.

If you are unfamiliar with cycling in and around Glasgow, our Duty Managers can provide cycle maps and directions, and can advise on the best routes to get you around the city. We also have a large cycle map of Glasgow prominently displayed in our Govan Rd foyer area.
